WHAT IS RESPITE

Help for the helpers. Respite is a break for unpaid family caregivers to care for a loved one with special needs.

Respite allows the family caregiver time away to care for their personal needs.

Research shows that when family caregivers take time for themselves, they improve their physical and emotional health.

You can use respite to:

- ✓ Go to the grocery store
- ✓ Visit the doctor
- ✓ Have lunch with a friend
- ✓ Take a nap
- ✓ Read a book
- ✓ Or for any other way you choose to reduce stress
